ACHIVEMENT

Buddi.Ai Achivements

- Worked on onboarding client the requirement to load 40k files in 2minutes which probability took 30 minutes

- Lead the interns and transfer the knowledge about project.
- Involved in patch deployment for both production and stage
- Developed run scripts for automating the process of deployment
- Involved in the server maintenance
- Used solr queries to load the data which is required to emit the codes.
- Involved in implementation of new feature request
- Worked on client ticket
- Testing the API developed for the reports and to emit codes using postman tool

to load, I optimized the various logical and indexing the queries and multithread the process and finally loaded in 1 min 50 sec.

- Worked on another onboarding facility of our highest revenue producing client , took the responsibilities and work on flexibility hour to sign the facility, finally the client approved our works and revenue from that client increased about 8%.
